Subject: Presentation Acceptance Letter – VI International Congress of Interdisciplinary Research #LoHacemosXTIC

Dear authors,

Receive a cordial greeting. Through this letter, the Scientific Committee and the Organizing Committee of the VI International Congress of Interdisciplinary Research #LoHacemosXTIC are pleased to inform you that, after the academic review process carried out, the following paper has been officially accepted for presentation at the event, which will take place from October 29 to 30, 2026, in the city of Cartagena, Colombia.

Title of the paper: *Cloud-Native Architecture for Spatio-Temporal Fusion and Scalable Analysis of Weather Radar and Meteorological Station Data*

Authors:

- Jenifer Torres Rodriguez (Universidad Distrital)
- Cesar Andrey Perdomo Charry (Universidad Distrital)

We also inform you that the corresponding information has been submitted for the article registration process and its inclusion in the official event agenda.

We appreciate your interest and participation in this new edition of the congress, and we reiterate our recognition of the academic contribution of your work.

Sincerely,

Organizing Committee
VI International Congress of Interdisciplinary
Research #LoHacemosXTIC
