Hello.

Here is submission summary.

Track Name: LoHacemosxTIC2026

Paper ID: 8

Paper Title: PROPUESTA METODOLÓGICA PARA LA VALIDACIÓN DE INSUMOS CARTOGRÁFICOS EN FLUJOS FOTOGRAFÉTICOS A ESCALA GRANDE

Abstract:

Currently, photogrammetric processes are essential for extracting information about the national territory, providing a broad description of the shape, geometry, and dimensions of its elements, while detailing everything that composes the Earth's surface through the interpretation of images obtained by remote sensing technologies. The purpose of this work is to develop a methodology that can be implemented in photogrammetric processes in order to subsequently generate large-scale and highly accurate cartographic inputs, contrasting them with the regulations established in Resolution No. 197 of 2022, which defines the "technical specifications for the products of the Official Basic Cartography of Colombia," currently published by the Instituto Geográfico Agustín Codazzi (IGAC).

Last Modified: Sat, 09 May 2026 00:26:03 GMT

Authors:

- josemanuel.aguilarruiz@gmail.com (Primary)

Secondary Subject Areas: Not Entered

Submission Files:

20260216_Plantilla_Anteproyectos_MCIC_2024.pdf (528 Kb, Sat, 09 May 2026 00:23:04 GMT)

Submission Questions Response:

1. Topics
Application of ICT in education
2. Additional Information
Autor1: Ingeniero Catastral y Geodesta, Especialista en sistemas de informacion Geografica y candidato a Magister en Ciencias de la informacion y las telecomunicaciones, +57 3114469261
3. I am interested in having the work submitted for publication in a scientific journal
Agreement accepted
4. Registration Benefit
Master's Students

Thanks,
CMT Team.
